## HIGH SCHOOL TOPICS

### HISTORY UP TO DATE—USE OF LIBRARY—SENIORS TO GIVE DANCE

An animated discussion of current political questions marked the first recitation in Mr. Howe's American History class. Mr. Howe proved his worth in upholding his views as to who should be our next president and other live political issues. He deems the topics of equal importance to past history, and always succeeds in arousing interest in politics in his classes. Seniors are looking forward to many interesting and profitable arguments in connection with their work in history.

Much more convenient than ever before is the school library this year. Under the capable direction of Miss Mae Church, librarian, numerous conveniences have been instituted which make it an easy matter to find books upon any subject. In addition to the card catalogue, each shelf is provided with an indexed list of subjects, such as history, botany, religion, etc. A bulletin will tell the students and teachers at a glance just what books have arrived during the past month.

An innovation in Miss Church's department this year will be a series of lectures to "Scrubs" on the use of the library. Judging from past years this will be an excellent thing, and will probably become a permanent feature. It may also be enlarged to include the Seniors who, according to Miss Church, might profit well by it, and Miss Church ought to know. The lectures will teach the use of the card catalogue, the use of the dictionary and encyclopedia, the use of the reader's guide in obtaining magazine material, and all the other little things necessary to the systematic use of the school library.

Merle Eckles, who was recently reported seriously injured as the result of an automobile accident, has resumed his work at high school.

Among the students who spent the summer at eastern points is Lynden Keyes, who was for two months the guest of Mr. A. J. Ballinger, formerly of 341 North Brand Blvd., Glendale, but now residing in Michigan. Lynden reports a most enjoyable time on Mr. Ballinger's farm near Albion, which is some ninety miles from Detroit. He is glad, however, like all the rest who journey from our fair city, to be back in Glendale.

Mr. J. T. Beach of the class of '16 has taken up study at the Los Angeles business college.

It is reported that the Seniors are soon to hold a dance. Better begin saving up your pennies!

—JOHNNY.

### CELEBRATES 100TH BIRTHDAY

William B. Nicoles of Medaryville, Indiana, is celebrating, Thursday, Sept. 14, the hundredth anniversary of his birth. He is the father of Walter H. Nicoles, of 1101 W. Seventh street, who has gone to Medaryville, to be at the celebration. Mr. W. B. Nicoles, known as "Uncle Billy," is a little more than two months older than the State of Indiana, the Centennial of which is also being celebrated at this time.

Born Sept. 14, 1816, in Ohio, he went to Portsmouth, Ohio, and there learned the tailoring trade. In 1837 he married Nancy P. Graham, who died at the age of 78. Nine children were born of this union. He has also ten grandchildren and four great grandchildren. He has been a member of the Masonic order for seventy-three years and is probably the oldest Mason living. He laid out the addition to the town of Medaryville, which is now the principal residence section. The Nicoles are a long-lived race. The combined ages of his mother, a sister, a brother and himself give an average of 96 years. The Town Board of Medaryville has declared Sept. 14 a holiday in honor of Mr. Nicoles and has made great preparations to celebrate his hundredth anniversary in a public manner.

### GLENDALE GOLFERS

The golfing season has begun again. The golfers of Glendale get out on the links at Griffith park as early as 5:30 a. m. There are a number of new beginners. Some of those who were out on Sunday were: E. S. Patterson, E. D. Wood, Jack Hearnshaw, Ernst Kimmell, Albert Pearce and Dan Kelly. No cards were made public. The season is too early for striking scores. The clubhouse is rapidly nearing completion. The course has been changed around and it is generally admitted that the new 17th hole is excellent. The whole course is better and more lively.

## MT. WILSON MUSEUM

### MR. AND MRS. TOLL AND FAMILY ENJOY AUTO TRIP TO HIGH PEAK

Mr. and Mrs. C. H. Toll and family of Kenneth road made the ascent of Mt. Wilson, by automobile, Saturday. Passing through Pasadena they climbed the steep grade that leads to the summit. They found the lower part of the ascent very precipitous. The road is narrow and with few turnouts and the fall on the side of the road is such as to alarm inexperienced auto drivers. "I did not see as alarming a bit of road throughout the Yosemite valley," said Mrs. Toll. "But when this lower part of the ascent has been passed, the upper road presents no such alarming appearance. One drives along with the big woods on each hand and there is a sense of perfect security."

"On the summit of the mountain we spent the night at the Mt. Wilson hotel. Sunday was marked by the arrival of a number of automobiles and a number of hikers. Of course the season is getting late, but even then it was astonishing to note how many people came to make the ascent. The most interesting part of Mt. Wilson, apart from the fine view obtainable from the summit, is the Carnegie museum and observatories. The museum is an astronomical museum full of interesting photographs of celestial phenomena. There are two solar observation towers and many other buildings. The building where the astronomers live is very much like a monastery. They are now working at the erection of a new 100-inch reflecting telescope. The huge lens for this instrument has been successfully completed. It will be the largest in the world."

"The present telescope is a 48-inch instrument. It is remarkable for the ease with which it is manipulated, the huge tube with all its appurtenances is turned round without any great exertion. Day and night observations are made of the heavenly bodies. The clear atmosphere of California and especially of Mt. Wilson, where one is above the clouds, is of immense advantage in this work."

### MUTUAL BENEFIT READING CIRCLE

It was remarked yesterday at the regular weekly meeting of the Mutual Benefit Reading Circle, that, throughout the whole summer (which practically ended for the circle yesterday, as the school term commences next week) there had been only one hot day of meeting. This was on Aug. 2nd; every other day has been delightfully cool, so that it has been no burden to follow attentively all the readings that have been given.

The kindergarten, which has been carried on in conjunction with the circle, closed yesterday, as the small people will be in school next week. Miss Provolt has had classes ranging in number from ten to twenty-five.

"The Dawn of Character" was under consideration. Reviews were given on "The Law of Habit," "The Growth of Habits," and "The Development of the Will." This review provoked much profitable discussion relative to the psychology of these interesting topics.

Thirty women were present. These included, besides the members, two new members, Mrs. F. Vernon Hall and Mrs. W. T. Hall, and the following visitors: Mrs. Margaret Longley, Mrs. F. N. Nay, Miss Ida M. Waite and Miss Gies.

### KALEM PICTURE COMPANY

The Kalem Moving Picture company is busy at present on the last picture in the series of "The Girl From Frisco." This is called "The Yellow Hand." It is a thrilling set of scenes, in which Chinese opium smugglers play a large part. The railroad company has just finished the thrilling drama "Saving Second Six." It was in this drama that Miss Gibson was thrown from her horse and was severely injured.

### NEW EASTON HOTEL BUILDING

The new hotel building which is to be occupied by W. H. Easton on Brand boulevard is now well under way of construction. The owners of the building are S. L. Borthick and E. K. Daniels. Contractor H. E. Betz is doing the brick work. The walls are being laid and partitions of the first story are being placed. The work is progressing very rapidly and undoubtedly the building will be ready for occupancy by December 1. The size of the building is 53x84 feet.

## DEMOCRATS SUBSCRIBE TO CAMPAIGN FUND

### REPUBLICAN TRIUMPH IN MAINE BRINGS IN LARGE SUMS FROM ALARMED FOLLOWERS OF WILSON

(Special Service to Glendale Evening News)  
LONG BRANCH, N. Y., Sept. 14.—It is stated here that the first results of the Republican triumph in Maine have been to alarm the Democratic leaders, and render them doubtful of their success in the national campaign. The situation has been placed before prominent Democrats everywhere and large sums are now being subscribed for the campaign.

## BRITISH BEGIN ATTACK ON COMBLES

### TEUTON VITAL BASE OF SUPPORT FEELS FIRST BLOWS OF FINAL ASSAULT

(Special Service to Glendale Evening News)  
LONDON, Sept. 14.—While the French are successfully holding on to the important ground won in front of Peronne the British are getting ready for the drive on Combles. They have now successfully consolidated their lines and the terrific artillery fire is already beginning to batter down the defenses of the strongly fortified city. The German reinforcements have been pouring into the Combles trenches all day.

## GERMANS PREPARE BALKAN OFFENSIVE

### ITALY LEARNS THAT THE KAISER IS GETTING READY AN EXPEDITION FOR MACEDONIA

(Special Service to Glendale Evening News)  
ROME, Sept. 14.—The situation in the Balkans is not pleasing to the Teutons, as the entrance of Roumania on the theater of war is making it difficult to get ammunition and guns through to the Turks, and is otherwise impeding German plans. The kaiser is said to be preparing a big army to take the offensive in the Balkans, drive the Allies out of Macedonia and bring the Roumanians to terms.

## SERVIANS DEFEAT BULGARIANS AT VARDAR

### BULGARIANS MAKING STRONG ATTACKS ARE DRIVEN BACK WITH GREAT LOSS

(Special Service to Glendale Evening News)  
PARIS, Sept. 14.—The greater part of the fighting on the Struma river and Vardar river line was done by the Servians, who drove the Bulgarians out of trench after trench and retained all the ground they won. The Bulgarians made fierce attacks throughout the night but were thrown back in every instance. The Servians captured Sorovitz, fifteen miles from Monastir, one of the important Macedonian cities.

## GERMANS SHIFT TROOPS FROM VERDUN

### ALLIED VICTORY ON SOMME FORCES KAISER TO SEND REINFORCEMENTS TO SOMME ARMY

(Special Service to Glendale Evening News)  
PARIS, Sept. 14.—Gen. Foch's successful attack on the German third line of defense, in the course of which he wrested the whole third-line system of defense between Combles and Peronne from the Teutons, has so shaken up and disorganized the German forces that it has been necessary to send fresh troops from the Verdun front to stiffen up the resistance. The fighting was fierce. The men of Picardy, under General Fayolle, who were fighting for their own homes, swept back the famous Prussian Guards, the elite of the German army.

## UNITED STEEL STOCK TOUCHES NEW RECORD

### INCREASED ORDERS AND INDICATIONS OF LONG WAR SEND STOCK TO 106½

(Special Service to Glendale Evening News)  
NEW YORK, Sept. 14.—United Steel stock struck a new high level this morning when the quotation was 106½ in the open market. Speculators are looking for a further advance. They say that the orders now in this country assure continuous work for two years to come and that there is every indication that the war will continue another two years.

## TAFT TO TAKE STUMP FOR HUGHES

### FORMER PRESIDENT WILL SPEAK FOR REPUBLICAN CANDIDATE IN OHIO

(Special Service to Glendale Evening News)  
NEW YORK, Sept. 14.—Preparations have been made for sending ex-President Taft to Ohio to take the stump for Hughes. Taft has a wide acquaintance in Ohio, where he is popular. It is expected that the Ohio campaign will start October 1.

## COMMERCIAL SCHOOL

### LOCAL INSTITUTION FOUNDED BY MISS VESEY MAKES PROGRESS

Founded a year ago by Miss Neva Vesey, the Glendale Commercial school, 343 Brand boulevard, has made very gratifying progress. Its numbers have greatly increased and in addition a night school has been established with pronounced success. Miss Vesey, the head of the school, is an instructor of experience and is always in touch with the most modern methods of commercial education.

Since having entered on her present educational career Miss Vesey has been successful in placing five of her pupils in good positions. This is a good record for an institution of such recent origin as the Glendale Commercial school.

"I give my students individual instruction as far as possible," said Miss Vesey. "They keep regular office hours and learn to rely on themselves and their own capacity. They are more like a big office force than a regular school."

"As far as dictation is concerned they take and transcribe their work as if in a regular business office. I always insist on perfection in spelling and to stimulate that necessary part of elementary knowledge I give a regular prize of \$1 for a competition in spelling. This is very popular."

"Bookkeeping is made practical and the regular 'College currency' is used as cash by the students. If they make mistakes they have to find them out and correct them."

"Most of my students come with good foundation of preparation from the grammar schools. I have had three high school pupils this year and one college graduate."

"In stenography I use the Pittman or the Gregg system as required. My night school is doing well. In every way I have reason to be pleased with the support the public of Glendale has given me and I do not doubt that it will steadily increase with the increase of the population."

### NEW MEMBERS ADMITTED

Mrs. H. E. Bartlett, 101 S. Brand, president of the Tuesday Afternoon club, entertained the executive board of the club Wednesday afternoon. This is the last board meeting before the club season opens, Tuesday, October 10. Much business was transacted and plans made for the work of the coming year. The board consists of Mrs. Bartlett, Mrs. Daniel Campbell, Mrs. C. E. Harlan, Mrs. E. H. Willisford, Mrs. Lawrence Ellis, Mrs. Stephen C. Packer, Mrs. Lee Clotworthy, Mrs. H. A. Goodwin, Mrs. David Black. Among other business transacted yesterday, the following ladies were admitted to membership in the club: Mrs. H. D. Thaxter, Mrs. Harry Greenwalt, Mrs. F. W. Chambers, Mrs. R. D. White, Mrs. Alfred A. Dove, Mrs. C. S. Parker, Mrs. W. M. Kimball, Mrs. R. A. Puffer.

### GLENDALE VOLUNTEERS

Glendale has now more than the requisite number of men enrolled for the Coast Artillery Regiment that is being formed to give it a place in that body. There are more than eighty men on the roll and more are expected. The preparations for the equipment and arming of the men are going on satisfactorily.

Wednesday night the company met in the drill hall, corner of First and Glendale. Fifty men were present. The company was under the charge of First Lieutenant Nicoles, who addressed the men, giving them an idea of the work they will be called on to do. They will be thoroughly instructed in the school of the company, and in manual and firing exercises and at stated periods will go to San Pedro to receive instruction in the handling of big coast defense guns. A satisfactory drill was given the new men in the school of the soldier and the school of the squad, after which company drill was undertaken. The company will meet next Wednesday, in the drill hall as usual.

### WINDOW ADVERTISING

D. G. Crofton Shoe Shop, 341 Brand boulevard, has a very interesting "kewpie" figure in his store window, which is attracting a great deal of attention. This is a kewpie about three feet in height, with the blackets of eyes and slightest of smiles. This striking figure is advertising the "Kewpie Twins", a new school shoe the information concerning which can be read in the advertising columns of the Glendale News. The figure is made of bisque and is quite solid and substantial.

## CURIOUS PLANT

### KELLEY & McELROY HAVE FINE SPECIMEN OF MIMOSA PUDICA AT NURSERY

Many people have read of the Sensitive plant, but not everyone has seen one. Kelley & McElroy, 422 S. Brand, have succeeded in raising a few of these curious plants from seed and they are now in bloom. There are several varieties of this plant, which is a native of Brazil. The Mimosa Sensitive, which grows to the height of about three feet, is one. It is covered with ball-like pink flowers. The Mimosa Pudica is another. The Mimosa Pudica, which is the real sensitive plant, is one grown in Glendale. The curious phenomenon which this plant exhibits has always attracted the attention of flower lovers. Touch its leaves ever so lightly with the tip of a finger and it will shrink away and fold them up altogether. When subjected to violent jar such as is caused by the passing of a street car its leaves close up and droop their stems altogether. This is the plant celebrated by Shelley the poet, who sang:

"A sensitive plant in a garden grew,  
The young winds fed it with silver dew;  
It opened its fanlike leaves to the light,  
And closed them beneath the kisses of night."

### ACKLEY OFFICE BURNED

Mr. H. C. Ackley of S. Kenwood street, who along with his son Forrest Ackley has a real estate office in Victorville, Cal., has been unfortunate enough to lose his building by fire. The news came to Mrs. Ackley this morning, by telegram, and she is now on her way to Victorville. The Ackleys had just moved into this office, Sunday, having had another office in Victorville for some time past. They were handling their own real estate in Victorville. There was no insurance either on the building or the furniture. It is not known what, if anything, was saved from the flames.

### JUDGE WORKS' LECTURE

Frederick Baker, chairman of the Chamber of Commerce committee who has been the means of securing Judge Lewis R. Works to deliver an address in the city hall, Saturday evening at 7:30 o'clock, urges that every citizen of Glendale be present and hear this able talk on modern city government. Judge Works will speak from authority, and he will express his honest views on the subject under discussion.

### THE NEW JONES GARAGE

The garage building that is being erected on the Mattison B. Jones lot near the southeast corner of Brand and Third street for William Sholes and Arthur Ballard is progressing rapidly. The brick walls are now being laid and the lumber for joists and floors is now on the ground. The size of the building is 50x80 feet and will cost about \$3500. The contract calls for its completion by October 1.

### FREE ENTERTAINMENT

Friday evening, September 22, at the High school auditorium, there will be given "The New Republic," beautiful, unique and thrilling. There will be seventy-five characters, comprising some of the best talent of Glendale, both amateur and professional. Mrs. Grover Cable, talented dramatic reader, will have the leading role. Save the date, September 22, and don't miss this fine entertainment.

### LOS ANGELES WOMAN'S CLUB

The regular meeting of the Woman's City club will be held in Blanchard hall, Monday, September 18, when Prohibition Amendments 1 and 2 will be discussed by: J. Stitt Wilson, affirmative. Dr. Norton W. E. Hazeltine, negative.

Luncheon, for which reservations may be made up to noon Saturday will be served at 12 o'clock, and the speaking will begin promptly at 1 p. m.

Non-members admitted upon payment of 25 cents admission fee.

### GO DO LIKEWISE

A real estate dealer spent 25 cents for a "For Sale" advertisement in the Evening News last week and the bit of publicity netted him \$300. He got his old suit pressed, his hat brushed up, and now when his friends meet him they bow and address him "Mr."

## CHRISTMAS TOYS FROM JAPAN

Unless Germany sends over a consignment of German-made toys, from Nuremberg or some other toymaking city, in one of the promised undersea merchantmen like the Bremen, there is likely to be a dearth of German toys in American stores this season. Their place will be taken by French toys which have a clear way across the Atlantic and strange to say by Japanese toys which have a still clearer right-of-way across the Pacific.

It will be remembered that there was quite an influx of Japanese toys last Christmas, though the choice was perhaps limited. The French also had a great many quaint dolls and striking toys of every description. This year the Japanese are likely to fill the market with wonderful toys. The prosperity which has attended Japanese trade since the outbreak of the war has been wonderful. The export of toys of all kinds in 1913 amounted to \$1,250,000, not a very large sum. The next year saw an advance to \$1,300,000 in 1914. In 1915 the sum was raised again to \$2,250,000 and for the first five months of 1916 it amounted to \$1,250,000 and by the end of the year will undoubtedly have attained the wonderful figures of \$3,500,000.

It may be said that this sum includes nothing but toys proper, while there are also many articles, such as pottery goods and silk goods which are really to be included under the head of toys that at present are scheduled under the manufactured article head to which they belong in name.

The Japanese are experts in the fabrication of wooden toys. They have a turn and twist of their own in dolls and animals, but they hardly understand the American outlook on the child's toy as yet, except in some respects. They excel in the making of celluloid and rubber toys. Metal toys, textile toys and paper toys are made by the Japanese in enormous quantities. By and by the legend "Made in Japan" will become as common as was the legend "Made in Germany." The Japanese are busy imitating the German-made alarm clocks, of which James Barrie said, "They were specially constructed to increase the insanity returns in England and America."

It is curious how the German clock drove the really good American alarm clock from the market and substituted its own flimsy irregularity for the steady, if noisy, alarm clock of American origin. America is now manufacturing alarm clocks of a solid and enduring quality and the "cheap and nasty" alarm has drifted out of German hands to the hands of the Japanese.

It is pleasing to read in trade reports that the old wooden toy with a modern cut and finish is coming into its own. A great proportion of these wooden toys made in Japan come from Hakone. As usual the craze of the Japanese to cut under the price of a neighbor has induced other towns to produce cheap imitations of the fine Hakone work.

This Christmas the American world will be deluged with Japanese toys. Among the excellent bits of wood work turned out by the "little brown brother" the work of the skilled artists of Hakone will stand out superior. The toy purchaser should look out for this work if for nothing else but to enjoy its artistic value.

## PROBABLE DURATION OF THE WAR

As more reports of what is going on in Europe reach this country it is becoming apparent that the war is going to last the full three years prophesied for it by Kitchener and likely a fourth year. Those who think that the Central Allies are at all near the end of their resources are very far mistaken and it is well also to reflect that they have in their hands the iron and coal regions of France and Belgium and of Alsace and Lorraine. There are also other deposits in those parts of the continent which Germany now holds for which the kaiser is willing to put up the greatest fight the world has ever seen.

Then, too, it must be apparent to everyone, that though the Allies have won no absolutely decisive victory as yet, that their success on all fronts have brought them to the point where they believe that they will, in time, win a complete victory. It may also be noted that the Allies have now greater numbers in the field, greater wealth for the prosecution of the war, and that they are now producing more shells than Germany. They have also come to the conclusion that it will be cheaper for them to prosecute the war to a finish now than if they were to stop and conclude a patched-up peace that would leave Germany in possession of the economic wealth of Belgium and France.

Then again Russia is a mighty item in the matter of concluding peace. The Germans are occupying part of Poland and the Russians say that they must not only be driven out of that part of the world but must also be forced to give up East and West Prussia and the province of Posen. The population of Posen is Polish. Half of East Prussia is Slav and there is a very large Slav population in that part of Germany around Dantzic. In all this vast territory there are 2,000,000 Germans and 4,000,000 Slavs. The question, says Russia, is, are the 2,000,000 to rule the 4,000,000. If Russia should liberate all the Poles as has been suggested, and should create a new Poland, then Germany would be forced to disgorge German Poland, that vast and rich territory which she partitioned with Russia and Austria.

These are the matters which are being discussed at present in Europe. There is no saying how they will turn out although both sides are positive that they cannot fail to result in their favor. The Germans rely on their wonderful organization and on the magnificent set of frontier railways which enabled them in the first stages of the war to gain a number of advantages.

The Allies say that these advantages have now been entirely overcome and that the end of the war is a matter of time and that it need not be expected to come early. They acknowledge the strength of the German combine but say that it is doomed. On the other hand the Germans claim that they are holding their own and even if the Allies take Comblès and Peronne and the third line of

## BARNUM & BAILEY CIRCUS COMING

At last the welcome news has been announced that the youngsters and oldsters of this vicinity will have an opportunity to visit the Barnum & Bailey Greatest Show on Earth. This great circus will be within easy traveling distance when it exhibits in Los Angeles on Sept. 25, 26 and 27.

This year Barnum & Bailey announce an all new novelty circus, composed of more foreign acts than ever before. An important feature is the new, Oriental spectacular pageant, "Persia, or the Pageants of The Thousand and One Nights." In this gorgeous display more than 1,350 persons participate. The Oriental music incidental to the production is rendered by 350 musicians, and 3,500 costumes are worn in the various actions of the pageant.

The circus program will be one of unusual novelty and variety. More than 480 arenic artists will appear in the various acrobatic, aerial and riding numbers, and an army of fifty of the funniest clowns on earth will keep the audience convulsed with laughter. Among the new acts to be offered for the first time this season are four great troupes of Chinese artists, presenting a complete Chinese circus, replete with thrilling aerial and acrobatic feats. The famous Hanneford Family, champion riders of Europe, are another new importation, as is also Signor Bagonghi, Italy's famous dwarf equestrian. More than twenty trained animal acts will be included in the program, headed by Pallenberg's two marvelous troupes of trained bears.

The Barnum & Bailey Circus is larger this season than ever before and requires 89 cars to transport it. It carries 1,400 persons, 785 horses and a greatly enlarged menagerie of 108 cages and 41 elephants.

## MY VACATION

I spent my vacation at La Jolla, San Diego. We saw many, many interesting things, all of which I cannot now recall; but I will tell of those that I can remember. We went to San Diego in the steamship Yale. At about 4 o'clock people started to go to the side of the boat and look at something. I could not imagine what; when I joined them I saw about 20 porpoises flopping and jumping out of the water. The next thing I saw was a flying fish which flew for about one long block.

At La Jolla we saw some very interesting birds of which we do not know the names. They went to the fig trees, rose bushes, and nearly every shrub, and played about them. One of these birds was all a vivid orange, except the tail and part of its back which were black. We did not see much animal life for the first week, but during the second week we saw numbers of living creatures. One day as we were having lunch I glanced out of the window and there I discovered an old deserted bird's nest. An asparagus plumosus fern grew up the side of the house and almost covered the window; it was in this fern that the nest was concealed.

We met a lady who told us about crabs and shells. So the next time we went to the rocks we hunted for different crabs and shells. We found some hermit crabs. These crabs are very lazy, for they build no home for themselves but they will get into a turban shell and stay there. If you should see a shell that seemed to be walking and picked it up you would find one of these hermit crabs. We saw another kind of crab which grows very big indeed; one was about as big as my fist. Still another interesting thing was pointed out to me by Kathleen when we were in bathing. We swam out about 75 feet when Kathleen looked down into the water and saw streaks of orange darting to and fro. She told me to look and I saw them also. These were goldfish. They are a bright orange color and are about one foot long. On this same day we saw five sharks which had been killed. One of them drifted ashore; it was about seven feet long and very fierce looking. This is all that I can remember now, so I will close.

DOROTHY WOODS, Aged 13.

Bird and Flower Club.

## Normal-izing Your Blood Pressure

OF late, you have heard a great deal about high blood pressure. You have heard that life insurance examiners refuse to accept anyone whose blood pressure is not normal or nearly so. This is because—a persistent high blood pressure compels the heart to do an enormous amount of extra work.

Ultimately this results in a narrowing and hardening of the arteries. And—you know, a man is just as old as his arteries.

Modern scientific research has given us an instrument by which the blood pressure may be accurately determined. This tells us whether your blood pressure is too high or too low—how much tension there is, or how little. In either event, it indicates exactly the curative agents to be employed in bringing it up or down to normal.

Drugs, especially in the treatment of high blood pressure, are of little permanent value. What is most needed is rest—a dietary that excludes certain injurious articles of food and drink—together with natural, rational methods of reducing the blood pressure—and keeping it down.

The treatment of high blood pressure at this institution—embracing, as it does, all these necessary factors—has proved especially gratifying in the management of many such cases. It follows that—if you are troubled with high blood pressure and fully appreciate its warning—we can do the same for you!

Treatment Rooms open 9 A. M. to 9 P. M., except Saturday. Trained Nurses of both sexes in attendance. For rates and appointment telephone Glendale 2 or Home 1213

## THE GLENDALE SANITARIUM

### SUNLAND

Vacation days came to a close. Fourteen pupils registered at Glendale High school. Forty-five in the grammar school, Sunland.

Mr. and Mrs. E. F. Lancaster spent Friday and Saturday at Redondo Beach, the guests of friends.

Mrs. M. Beckmeyer is visiting her parents, Mr. and Mrs. J. I. M. Spencer, this week. While here she left her subscription for the Tri-City Progress.

Mr. and Mrs. J. Terry of Summit avenue are the proud parents of a baby girl, born Sept. 9th.

Mrs. L. B. Rowley, who has been very sick the past week, is much improved at this writing.

Mr. M. Barnett, who has been spending the summer at the Monte Vista Tavern, left Friday for San Diego.

Mrs. Mary Mears came up from Los Angeles Monday to spend a few days with her son, B. F. Mears, at the Rands.

Mrs. F. Buck and son Sabin returned to their home in Glendale, after a two months' stay in Sunland at the Tavern. Sabin is much improved in health and expects to enter high school.

Mrs. C. B. Johnson of the Big Tujunga is spending a few days with her sister, Mrs. W. H. Nance.

Mr. Alfred Adams, Sr., has received a call to become pastor of the Holiness Church at Santa Ana. Mr. Adams and wife will leave Saturday and be gone over Sunday but still make their home in Sunland.

Mr. and Mrs. C. Harding were pleasantly surprised on Admission Day by a party of relatives from Los Angeles, who brought a lovely picnic dinner and spent the day with them. Among the guests were Mrs. Beason and daughters from Denver, Colo.

A. Burch of the Colonial club surprised Mr. A. D. Kirchman Monday evening, Sept. 11th, and reminded him it was his birthday. About thirty people were present. The evening was spent in cards and games and Mrs. Kirchman served dainty refreshments. At a late hour they departed for their homes leaving many good wishes for the coming year.

Mr. Walter Maygrove and family have returned from Catalina, where they have been spending the summer, and Mr. Maygrove has taken up his music work in Sunland. The strains of music from the band practice is again heard in the valley. We are glad to have Mr. Maygrove and family back with us.

### Warning

Complaint has been made that the school boys are tampering with the mail in the rural boxes on their way home from school at noon, taking letters from the boxes and throwing them on the ground. This is a grave offense, and if repeated the parties will be reported to the government authorities. Parents had better look after these children.

Miss Alice Marks and daughter Mabel of La Crescenta are visiting at the home of Mrs. L. Johnson.

Mr. Hanford Freeman and father have purchased the trucks run by Osburn and Co. and will continue the truck business in Sunland and Tujunga.

The subject of the Christian Endeavor meeting, Sept. 17th, is "Little Chances to Help." Ex. 17:8-13.

### Personals

Mr. and Mrs. George Pfaff of 212½ Orange street will move into the Hawthorne apartments, Sept. 15.

Mr. and Mrs. Eugene Brown were dinner guests Monday evening of Mr. and Mrs. Jesse Joseph, 1431 W. First street.

Mrs. E. Krachey of 712 Raleigh goes to San Francisco today to spend a month with a daughter, the wife of Senator Lyon.

Grover V. Reed of 1455 Oak St. has ordered a new Ford and on its arrival will deliver mail therefrom on his rural route.

Mrs. Henry Yockey and daughter Marjorie of Garden Grove have been visiting their daughter, Mrs. Robt. Martin, and family, at 1461 West Second street.

Mrs. L. B. Simon and sister, Mrs. Bessie Higley, motored to Garden Grove Tuesday spending the night with Mrs. Henry Yockey and daughter Marjorie.

Mrs. Elizabeth Higley of Memphis, Tenn., is spending 2 months visiting her sister-in-law, Mrs. Louise B. Simon of 414 Orange street, and relatives in Los Angeles.

W. J. Bohon, of the Glendale & Montrose railway company, returned Wednesday morning from Swansea, Arizona, where he has an interest in some mining property.

Miss Georgia Higley returned to her home in Chicago, Ill., Sunday, after spending a pleasant six weeks in Glendale, San Diego, Long Beach and Pomona, visiting relatives and friends.

R. M. Jackson, secretary of the Glendale Chamber of Commerce, and C. O. Pulliam, motored out to Tujunga Wednesday afternoon, on matters connected with the coming November election.

Mr. Fred Baker, 109 N. Maryland avenue, who is city attorney of the town of Avalon, Catalina island, is spending two days on the island this week in connection with the legal affairs of the town.

Miss Mildred Carmichael, daughter of W. S. Carmichael of 433 Cedar street, who was injured in an auto accident on July 4, has so far recovered as to be able to be taken out in a wheel chair.

Walter H. Nicles, 1101 W. Seventh street, is at present in Medaryville, Indiana, whither he has gone to attend the celebration of the hundredth anniversary of the birthday of his father, William B. Nicles.

Mr. John M. Ray of Casa Verdugo has purchased a lot at Kenwood and First from J. F. Lilly and will immediately build a seven-room bungalow of modern design. J. J. Burke has been awarded the contract. Mr. Ray represents the N. W. Mutual Life Insurance company of Milwaukee.

The McCrackens, who recently leased C. H. Woolsey's place, 1629 Riverdale, and stocked it with chickens, bought from the Whitten ranch, have sold their stock and pens and will return to Los Angeles. An injury to Mr. McCracken's hand that developed into blood-poisoning necessitated the change.

Miss Harriett Wells and her mother, Mrs. R. H. Wells, will give a trousseau tea to a number of their most intimate friends, at the Wells residence, 1504 W. Broadway, Saturday, from 3 to 5. Among the many lovely wedding garments which will be shown the guests are a number of daintily hand embroidered articles.

Mrs. J. E. Yancey of Bakersfield, whose husband is sheriff of that city of the desert, and who has been visiting Southern California during the past month, renewing her acquaintance with her old friends and recuperating from the heat of the desert, left Glendale Thursday morning for her home. Mrs. Yancey has been in very poor health for some time and it is likely that she and her husband will ultimately settle in Glendale.

Mrs. T. J. Keleher, 228 N. Louise street, entertained a party of twelve ladies at the Sierra Madre club, at luncheon Friday. After luncheon the ladies played auction bridge. Those present were: Mrs. John Reid, Mrs. Fred Grundy, Mrs. M. Lendts, Mrs. L. Webb, Mrs. R. Grundy, Mrs. G. Heldman, Mrs. N. Jack, Mrs. G. B. Wilson, Miss Alma Grundy. Mr. and Mrs. Keleher were guests at the Alexandria hotel, Los Angeles, Saturday. Their host and hostess were Mr. and Mrs. W. W. Alverson of San Francisco and other guests were Mr. and Mrs. W. K. Hargis of Chicago and Mrs. Norman Jack of Los Angeles. Mr. and Mrs. W. K. Hargis have been guests at the home of their relatives, Mr. and Mrs. T. J. Keleher, during the past few weeks. They left for Chicago Tuesday.

Eddie placing a death wound. Robert ran up to knife the deer, which lay apparently dead, when the deer came to life just as he grabbed the horns and the boy and deer tried every known step together over the mountain. At last the deer broke loose and Robert seized his gun and killed him.

### TAX NOTICE

Notice is hereby given that all taxes of the City of Glendale are now due and payable.

That all taxes upon personal property and one-half of all taxes upon real estate will become delinquent upon the second Monday in December, 1916, at five o'clock p. m., and unless such taxes are paid prior to that time, ten per cent will be added to the amount thereof.

The remaining one-half of the taxes upon real estate will become due and payable on the first Monday of January, 1917, and will be delinquent on the last Monday in April, 1917, at 5 o'clock p. m. of that day; and unless paid prior thereto five per cent will be added to the amount thereof.

All taxes may be paid at the time of the payment of the first installment.

Place of payment, at the office of the Tax Collector in the Glendale City Hall, between the hours of 8:00 a. m. and 5:00 p. m.

Glendale, California, September 14th, 1916.

G. B. HOFFMAN, Tax Collector.

### FIRE THREATENS SANTA CRUZ REDWOODS

SAN JOSE, Sept. 14.—The destructive forest fire which has been creeping up the eastern slope of the Santa Cruz mountains since Sunday is now close to the giant redwoods. All that is keeping the flames from destroying the redwood forest is the exertions of 700 weary men who are fighting the flames manfully on the slopes.

### NOTICE OF ANNUAL MEETING

Office of the Glendale Masonic Building Association, The Temple, 532 South Brand Boulevard, Glendale, California.

To the Stockholders of the Glendale Masonic Building Association:

Please take notice that the regular annual meeting of the stockholders and election of directors of the Glendale Masonic Building Association will be held at the Temple, 532 South Brand Boulevard, City of Glendale, County of Los Angeles, State of California, on Tuesday, the 3rd day of October, 1916, at 6:30 p. m. for the purpose of electing directors of said corporation for the ensuing year, and for the transaction of such other business as may properly come before the meeting.

JOHN HOBBS, Secretary.

# ESSENTIALS OF A BUSINESS EDUCATION

Some valuable information has been received in reply to a letter addressed to the head of the school maintained for its young people by one of the largest mercantile houses in New York City, as to what are the main essentials in a commercial course of study for boys wishing to enter business. He writes:

"In what I have to say I am implying that a boy has had what is known as a common school education and possibly a high school course. Let me say at the outset that the demands of present-day business make general knowledge as well as commercial training necessary for those who would succeed in winning the prizes in mercantile lines. The school of experience is a hard taskmaster, and in its absence no easy road has yet been found. A century of experience at clerking will never qualify a man to handle with intelligence and confidence the intricate problems of a vast organization.

"I would say that the prime requisite for a boy or young man entering a mercantile establishment is, first—a knowledge of bookkeeping and accounting. The importance of this subject should not be lost sight of, neither should the impression be improperly circulated that accounting is an abstruse science that can be taken up only after much study. The subject of business records and their classification should be understood.

"The importance of business correspondence should not be overlooked. A large portion of business dealings is carried on through the medium of the letter, and the ability to put one's thoughts on paper in a clear, concise fashion is invaluable. Training in this direction should occupy an important place in any course of business education.

"A general knowledge of commercial geography should also be included, and a young man can hardly be said to have a grasp of the broad details of modern business unless he is well acquainted with the world's markets and their location.

"The subject of transportation by rail and water should receive careful study. Economy of distribution on a large scale has resulted in the development of the largest concerns the world has ever known. Competition is keener today than ever and prices are figured on a closer margin of profit, and the element of transportation is a highly important factor.

"From this it will be seen that the aspiring student of business must acquaint himself with a large amount of information, comprehending many angles of activity. In my opinion, no course in commercial training is complete without a good grounding in the elements of scientific salesmanship and advertising. Commercial law, insurance, real estate, foreign trade and foreign exchange, together with a knowledge of natural resources, and at least a fair understanding of the functions of our government, are highly important essentials."—Young People's Weekly.

## THE RIGHT WORD

The right word is always a power, and communicates its definiteness to our action.—George Eliot.

# TUJUNGA

Thanks are due the management of the Tri-City Progress for the invitations received by the patrons of the community to the celebration of the Third Anniversary of the Progress, held in Glendale last Thursday evening. Best wishes of Tujunga are extended for the future success of this periodical.

There will be Episcopal church services held at the home of Mrs. Fortiner on North San Ysidro road next Sunday morning, Sept. 17.

Mr. and Mrs. J. W. Catt were in Los Angeles Thursday of last week to attend the Mission Play.

School opened this week with the largest initial attendance in its history. There are 38 pupils enrolled. Misses Salstrom and Wilson were in their places promptly on time Monday morning to greet the children, who are delighted to have their teachers return for another year. This is Miss Salstrom's fourth year and Miss Wilson's second.

Saturday evening Mr. and Mrs. J. T. Ward were in Los Angeles to enjoy the Mission Play, which showed all last week at the Mason. This week the Mission Play is presented at Santa Barbara.

Sunday morning one of the best sermons ever delivered in Bolton Hall was given by Rev. W. H. Wieman. "The Necessity of Fitting Environment for the Highest Development of the Spiritual Life" was the topic. In the evening there was a temperance rally led by Mr. James C. Penn, with music by the Maygrove orchestra.

Last week Mr. and Mrs. Maygrove and family returned from spending the summer at Catalina Island.

Mr. and Mrs. J. H. Lamson are at their home on Greely avenue once more, after having been absent the whole summer at Wheeling Springs.

Mr. and Mrs. Moore of Los Angeles and Monrovia are occupying the cottage of Mr. Wm. Miles on North Sunset boulevard.

Mr. Charles M. Frey has returned to his post at the Alexandria hotel, after spending a week at the McKee cottage.

There are ten pupils in attendance this year at the Glendale High school from the Tujunga school. They are: Eric Thomasson, Gladys Johnson, Louise McClement, Edna May Van Battum, Richard Frost, Alice Green, Henry Fehr, Margaret and Geneva Lang, Philip Begue.

Miss Gladys Thayer of Los Angeles spent an enjoyable day last Sunday, the guest of her parents, Mr. and Mrs. Charles M. Thayer of Monte Vista boulevard.

A good deal of indignation and annoyance has been aroused at various times by the meddling of someone with the club house clock. The matter reached the climax last Saturday evening when, notwithstanding the fact that though the clock had been locked and the key carried away, yet some one, whose identity is known, managed to stop the clock, thereby throwing the services of the Sunday School and church out of gear for about half an hour last Sunday

morning. Parties using the hall are requested and expected to so conduct themselves as not to interfere in any way with the furnishings of the library or other furnishings of the place. Persistence in this course may result in the management refusing to let the hall to those who so flagrantly disregard the rights of others.

Miss Carrie Brown delightfully entertained the Ladies' Aid at her home last Thursday afternoon on east Monte Vista boulevard. After the usual devotional exercises and lesson the ladies gathered under the shade of the great spreading oak in Miss Brown's yard, and there a social hour was spent and refreshments enjoyed.

Thursday morning of last week Mr. and Mrs. Chapp accompanied by Dr. and Mrs. Kearney motored to Pasadena. The day was perfect and the trip a most enjoyable one.

Mr. and Mrs. Saegar of Casa Verdugo were here last Saturday and again last Tuesday to witness the flag raising and other exercises held that afternoon at the club house. They have rented, again, we understand, the Shumway house and will spend some time here, perhaps taking up their residence here permanently.

## Moon Rise Picnic

Last Monday evening about twenty of the members of the Friday morning Round Table and their husbands and other friends were entertained at Old Tujunga Homestead by Mr. and Mrs. Paul Heffleman and Mrs. Slavinsky. The occasion was a call to view the setting of the sun and rising of the full harvest moon from the heights that lead back of the Heffleman home and that command a full view of Tujunga and its environs and the entrance to Haines canyon. Shortly after the party arrived at the heights the sun went down in a golden glow such as can be seen only in large spaces or at great elevations. Soon there was the afterglow and then just as fair Luna lifted her crown above the mountain top the party broke into song, chanting the beautiful production written by Miss Gilbert and which appeared only recently in the columns of this paper, "Tujunga." Afterward the guests descended to the house where, out-of-doors, the tables had been spread for a picnic supper, to which it is superfluous to add, everyone did full justice. Throughout the repast delicious chocolate and coffee were served by the hosts. After the supper little groups formed for social chat or just to sit and look off over the moonlit valley. Before the party dispersed, old songs were indulged in and once more Tujunga rung out over the vale. The hospitality dispensed in this home is of the kind that causes the participants to feel thoroughly at home. The guests were one in their expressions of appreciation of the pleasures of this most delightful evening.

We are promised an address next Tuesday evening by Theodore Payne, author of "Wild Flowers of California."

## Harvest Home Festival

Last Tuesday afternoon practically the whole village turned out to celebrate the long talked of Harvest Home Festival. The old soldiers, Mr. Wm. Miles, Mr. C. H. Clark, Mr.

J. R. Shoemaker, Mr. James H. Rouse, Rev. Warnum, Mr. G. E. Ingersoll, Mr. J. C. Lang, had charge of the flag. Following is the program:

Original poem, Mrs. Shaner. Raising of the flag accompanied by the band playing "The Star Spangled Banner." Dedication of flag prayer, Rev. Mr. Warnum. Salute to the Flag, followed by the singing of "America" by the school children under the direction of Miss Ada Salstrom.

## CONTESTS

Wheel barrow, boys, 1st prize, necktie, Joe Knight; second, Russel Heald.

Peanut race, girls and boys—1st prize, Nat Zitts; 2nd, Charles Lang. Boys' 50-yd. dash—1st, Nat Petrola; 2nd, Fabien Osborne.

Girls' 50-yd. dash—1st, Fay Schwerer; 2nd, Adeles Miles.

Girls' peanut race—1st, Virginia Petrola; 2nd, Gladys Maygrove.

Cracker eating contest—1st, Harry Zitts; 2nd, Vera Behrens.

Little girls' 40-yd. race—1st, Olive Wilson; 2nd, Helen Heald.

Nail driving contest for ladies—Mrs. Fisher, 1st; Mrs. Maygrove, 2nd.

Russian drive: This consisted in a number of paper bags strung along a rope at a distance considerably higher than the contestants heads. Each person was first blindfolded, turned around three times, given a long pole and told to walk toward the bags and strike, aiming to hit a bag. Each bag was numbered with a number corresponding to the number of a prize. The winners were: Joe Petrola, Bruce Mendenhall, Kenneth Miles, Joe Knight, Muriel Osborne, Alex Wilson, Fay Schwerer.

In the evening occurred the harvest home supper, which was laid on long tables in the club house, friends and neighbors gathering in groups. There was a special table for the band members. After the supper the following short program was given: Music—Monte Vista Valley Band, directed by the bandmaster, R. Walter Maygrove.

Reading—Mrs. D. C. Dean.

Two piano selections—Miss Bertha Fehr.

Two readings—Mrs. Leo L. Lang. Song, "Tujunga"—Quartette, consisting of Mr. W. H. Wieman, Mrs. Kearney, Miss McKee and Dr. Buck. Accompanied by Miss Fehr. Audience joined in the chorus.

Song, "My Wild Irish Rose"—Mrs. J. H. Catt. Accompanied by Mrs. Livingston.

After this was the announcement of the winners of prizes of those winning in garden products, of which there was an exceedingly fine display artistically arranged around the sides of the hall. A short speech by Dr. Kearney, one of the judges of the display, commending the exhibit and exhibition, preceded the announcement. The names of the prize winners will probably appear next week.

Mr. Ashby in a brief speech spoke in high terms of Miss Bertha Fehr's ability as a pianist and her willingness and faithfulness to the interests of the community in this respect. This speech was roundly applauded because Miss Fehr deserved every word said in her praise.

The evening closed with a concert by the band, who were very gracious in responding to the applause elicited by their playing.

# THE SAME OLD STORY

The practice of having our own way in public affairs or we will not approve of anything that is done is a fault that we all have and that works against the best interests of the upbuilding of any community. The faculty of pulling together in a community is a wonderfully good factor when it comes to the successful carrying out of all plans. Minds which have been actively at work are very apt to come to different conclusions. Mr. A. arrives at one conclusion and Mr. B. at another. Both of these gentlemen have merits in the plans they present. If the public adopts A's plan, B. should join in and co-operate and assist in carrying out A's plan. The next time a project comes up for consideration, the public may adopt B's plan and then it is the duty of A. to assist in making B's plan a success. This custom some people have of always opposing everything they do not coincide with in all particulars is one that works against the building up of a community. "If I do not have my own way I'll merely sit back and leave the work for others to do. It is my own way or no way." People who are possessed of such characteristics may be good citizens but they are not the ones who can be depended upon year in and year out to keep up their end of the work in civic affairs. The principle of give and take and do the best we can under the circumstances has great merit in it. There are times when the co-operation of every citizen is needed in the community that the things to be accomplished may go forward in a successful manner. A man who has the ability to do business with others under all circumstances is the man who may be depended upon as having the greatest influence in the neighborhood in which he resides.

There is no man can do much single handed. It is by united efforts that great work in all lines is accomplished. When we find a worthy citizen striving to make things better in his locality why not go to work and assist him in carrying out his plans instead of standing back and wondering if he will make a success of what he has undertaken. Friendly suggestions are in place and will be heeded if given in the right spirit. If there is anything that retards the progress of a community it is factional fights and differences over little things that should never enter the mind for consideration.

# REUNION OF STATES

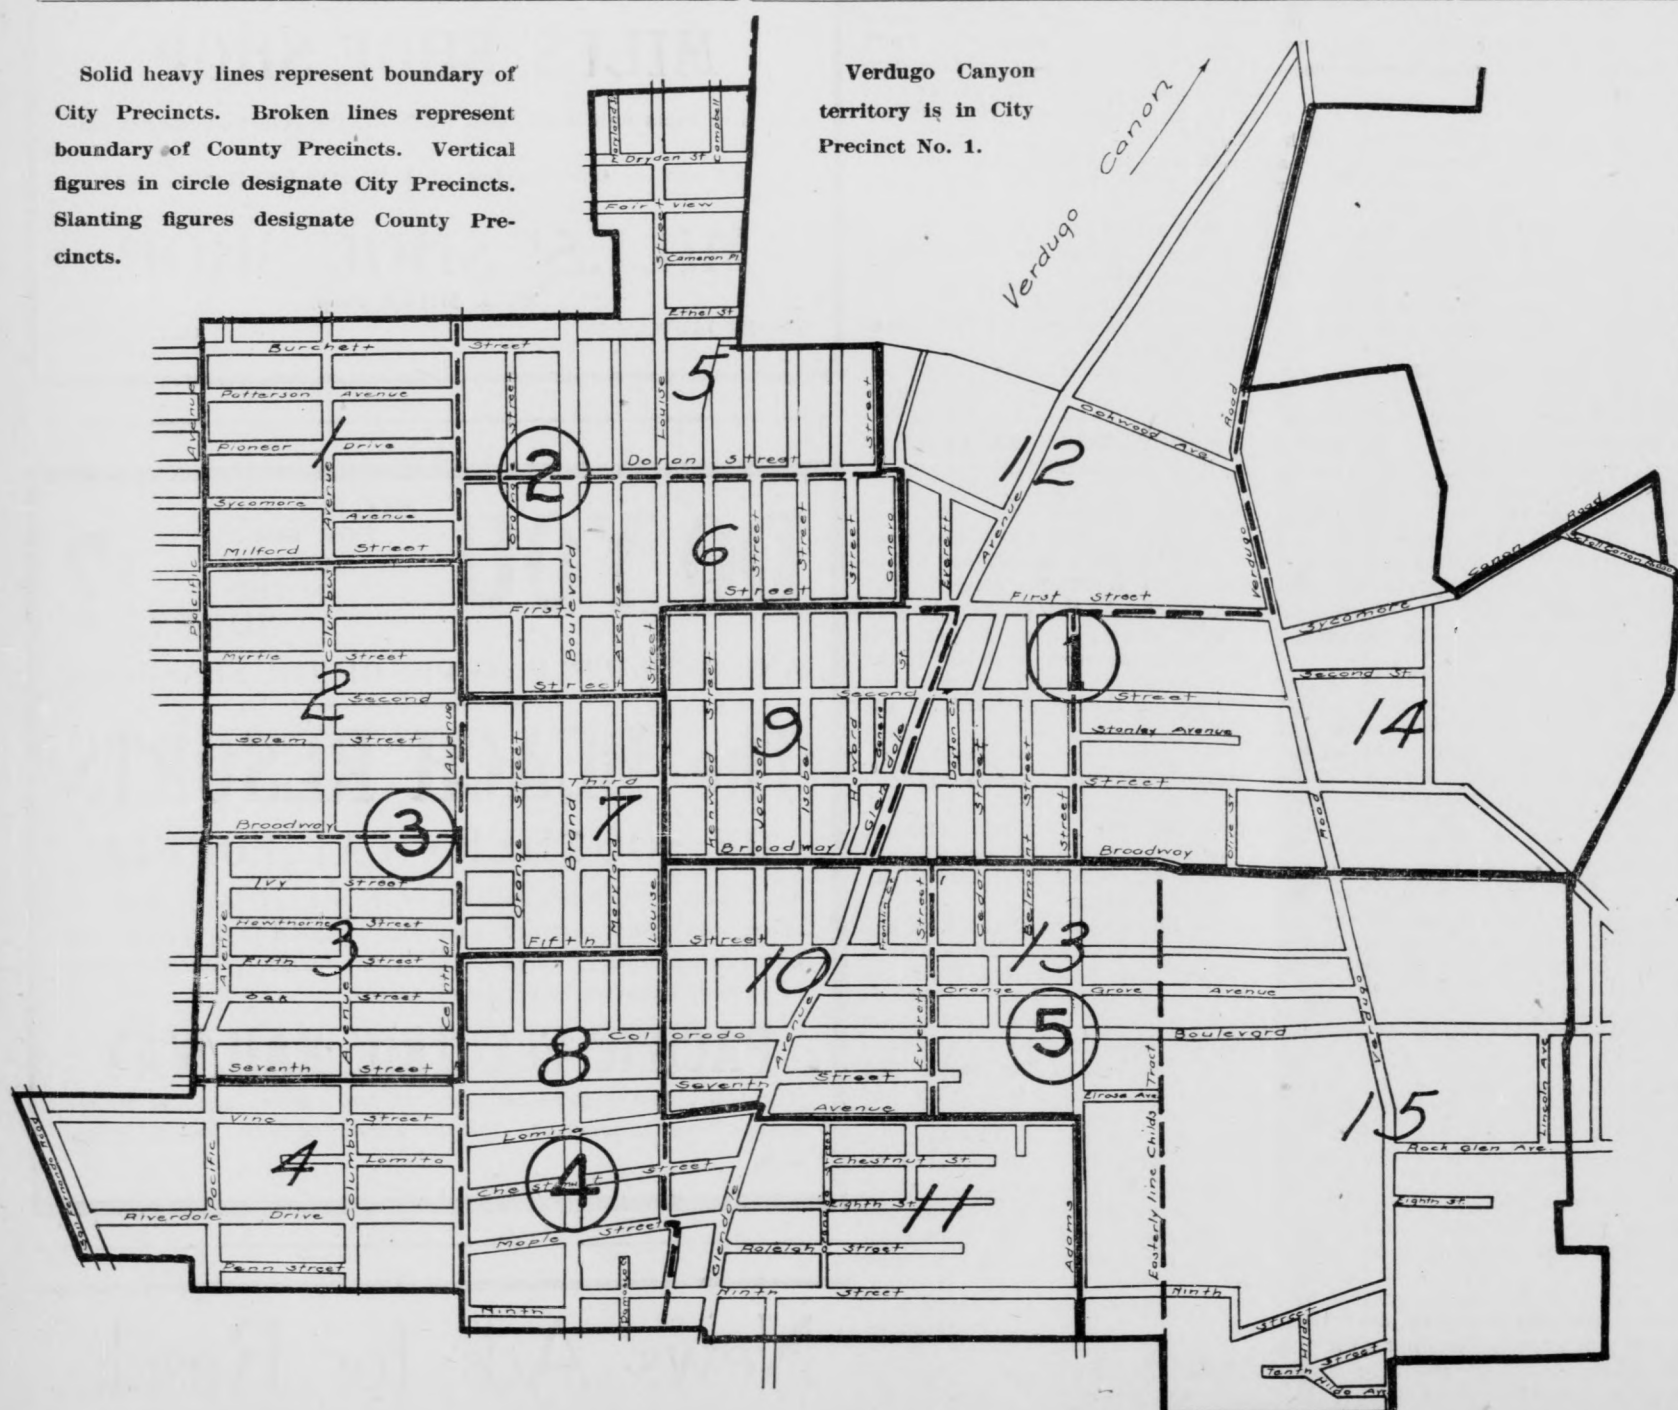

One of the great pleasures eastern people who have moved to California have, is participating in the reunion of the people from the State in which they lived in the east. Southern California is largely made up of people from eastern and middle west States and the people have the habit of getting together at least once a year to talk over the happenings of years ago in their native states. The practice is one that should be commended.

A screen of panels showing a block of every commercial wood in the United States will be exhibited by the National Lumber Manufacturers' Association at the Minnesota state fair at Minneapolis, September 4 to 9. A miniature model of modern farm buildings, including dwelling and all the necessary farm buildings, will also be exhibited. Motion pictures will give statistics and suggestions on the use of woods.

# IN A BUSY AGE

The times and conditions are strenuous. A remark was made that people did not need longer to work hard. It was an excuse for a son giving up his "job" because it soiled his hands and sometimes made him bend his back under the burden of his duties. There was a moral defect there. Only he will succeed who uncomplainingly does the duty which has fallen to his lot. Then he may earn and secure promotion.

Solid heavy lines represent boundary of City Precincts. Broken lines represent boundary of County Precincts. Vertical figures in circle designate City Precincts. Slanting figures designate County Precincts.
